Each group has 10 minutes plus 3 more for questions. You will be live-demoning your code, so make sure you select and practice the commands ahead of time so you do not lose time on the “demo effect”. Also, make sure you check out the projection equipment in Park 337 and make sure you can connect your laptop to it, or access your slides/software some other way. There is a Computer Science PC in 337 which accepts CS logins and a Windows PC that accepts general BMC and Haverford logins.

Presentation order:
1. Nadine Adnane, Ari Benkov, Ruikang Shi
2. Lizzy Chan, Tessa Pham, Xinyi Wang
3. Xinning Fang, Ricki Su, Rachel Wang
4. Sonya Fucci, My Nguyen, Lynn Wu
5. Russel Gerhard, Conor Stuart Roe, Greg Van Aken
6. Rose Lin, Caroline Shen, Sunny Qi
